Ear	\$8		

IPL Hair Removal

IPL hair removal works by directing concentrated light into the hair follicle without disrupting or damaging the skin's surface, inhibiting the hair's ability to grow. IPL hair removal is a fast, gentle and effective way to remove unwanted hair with permanent results. After treatment, avoid any heat such as hot showers, spas or saunas for at least 24 hours, as well as extreme sun exposure for two-four weeks regardless of skin type.
